presents

Glimpses Into
Antebellum Homes
of
Historic Huntsville, Alabama

The local branch of the American Association of University Women is presenting sketches of 69 existing structures built prior to 1860 with the idea of preserving the historic and cultural background of antebellum Huntsville.

The architectural features, furnishings, and residents are presented to the best of the organization's knowledge from information received from current owners and various other sources.

It is hoped that this publication will encourage an increased interest in the early history of the community so that others will endeavor to preserve the tangible remains of antebellum Huntsville as a cultural center of the Old South.

Completely Revised Ninth Edition, 1999.
